

**September 20, 2024**

Number of Head: 1,617

There were 122 cows and 25 bulls. Packer market on cows was weaker as fall runs begin. Tops on packer bulls was at \$155/cwt, while tops on cows was up to \$125/cwt.

The calf market was steady with last week’s levels. Demand is still strong leading to a very active market. Calves under 400 pounds were a little weaker while heavier calves showed some gains. The fundamentals of supply and demand continue to point to a higher market, but the futures market has not reflected that.
