

September 18, 2026

Total volume reached **1,789** head this week (168 cows, 13 bulls). Packer cows and bulls took a slight hit, and calves were a mixed bag with prices fluctuating depending on the class. The board was down four days this week, but demand is still holding strong and prices are still looking great. Here's hoping we bounce back to those recent highs soon. And as always... keep praying for rain!
